

# CROSS TRADE FREIGHT

## BEYOND BORDERS: Consignment in action

We understand that sometimes you need to move your cargo to and from the countries in which you are not based. In such complex shipments, managing expertise and advance strategies required to avoid any inconvenience in processes involved in the entire operation such as the appropriate documentation, making sure that all rules and regulations have been followed on both ends, logistics & value added services.

Skylink provides Cross Trade solutions through our network of worldwide offices & trusted partners. This specialized service that provides transportation of goods between two countries which is outside of the country of control. Cross trade eliminates goods being shipped to the control country first and then onward to the final consignee in a different country. Our skilled team is well-versed in cross trade operations, and knows the best ways to pay or collect for each transaction. All of these linkages help us to become more effective leaders in cross-trade market.

Skylink skilled workforce, dependable international shipping brokers, and local freight experts enable us to manage intricate cross-border shipments by land, air, and sea. We also offer a specialized management team with exceptional cargo handling ability to satisfy your shipping needs.
