# SMART UNIVERSITY PROJECT

## MANAGING SUPPLY CHAIN: In the field of Education

The HEC Smart University Project marks a groundbreaking venture in advancing educational technology with a focus on integrated smart university solutions, cutting-edge infrastructure and innovative teaching methodologies, this initiative aims to create an intelligent, connected learning environment. Skylink logistics services for the HEC Smart University Project are tailored to support the procurement, transportation and deployment of the latest technologies and materials, ensuring a seamless implementation and contributing to the success of this transformative educational endeavor.

HEC the project was approved in 2015, at a total cost of Rs2.4 billion. There has been no change in the contract cost since then. Work on the project started in 2016, the main deployment of the equipment (phase-I of the project) will be completed in 2019 and is scheduled to be completed in eight years, that is 2024.

The aim of the project is to equip university campuses with blanket Wi-Fi coverage, in order to enable the deployment of other smart instruments as needed. The project has provided a suite of important services to thousands of students and faculty members across the country.
